

Dear Friend,

It's a pleasure to share with you here the link to our Webpage for the Summit of Summits.

<http://summitofsummits.org>

Here is some important background to its intended use and distribution.

Please read this before doing anything.

The Invitation

We ask you to respect that the intention for the distribution of the link is not through broad marketing or social media, but only from personal hand to personal hand/word of mouth.

In following this request you'll help in two significant ways:

First, and on the surface, that the invitation finds its way by hand to leaders of established summits, communities and networks you know, admire and may be part of, whom we are calling to join the first Summit of Summits on 25th to 28th September 2024. (In Japan, and for which we've designed a unique optional extra tour, imagining some leaders from overseas will appreciate this additional opportunity). But equally important,

Second: The underlying purpose of this initiating event and those that follow is to activate a long-term global citizens' movement that will serve to help de-escalate hostilities and advance the cause of lasting peace and prosperity.

By sending out this invitation directly to leaders as mentioned, or to friends, colleagues and acquaintances of yours who might have personal contact to them you and they actually become part of this global movement already now!

The Request

So what we're asking you and your friends to do if you feel so moved, is to help us 'snowball' this out personally, along with this explanatory text if this is helpful. (Attached also in pdf form).

Who are we?

It's unlikely that your friends will know our names or have heard of us initiators, because we're just ordinary citizens. But that's just the point. It feels like a now-or-never moment for those of us ordinary citizens who feel the need for global peace and prosperity, to raise our collective voice and engage those who already have some proven influence and expertise in bringing many people together, to help. We invite and deeply appreciate your participation in this.

With gratitude,

Peter Koenig (creator and host of the 1st Summit of Summits Gathering, author of this text)

Alexander Inchbald (creator and guarantor of the long-term initiative)

Ilona de Haas (communications)

Karen Kennaby (travel curator and Contact Person)
